

Curriculum Vitae

Michael MacPherson
Senior Viticulture Manager

In-Field Ag Pty Ltd
10/24 Bridge St
Balhannah SA 5242

tel. 08 8388 4948

Areas of expertise

- > Technical and practical experience in all aspects of vineyard management and consulting in both warm and cool climate regions
- > Revegetation using native species
- > Technical advice to olive growers

Qualifications

- > Bachelor of Applied Science (Viticulture), Charles Sturt University, 2006

Career summary

Michael began his career as a general vineyard labourer in the mid 1990's, beginning work with Infield, then known as Adelaide Hills Vineyard Contractors, in 1998. He became the company's first appointed vineyard manager in 2003, and after attaining his qualifications in 2006, was appointed to his current position.

Michael's main role is team leader for our viticulture department and is responsible for reporting to the owners of Infield's managed vineyards. Michael also co-ordinates Infield's technical services package.

Range of experience

- > Provision of technical information and advice to Infield's managed vineyards and independent growers
- > Co-ordination of Infield's viticultural team, and the provision of training and support to team members
- > Provision and co-ordination of monitoring services, spraying programs, subcontractor labour for seasonal vine management work, assessing infrastructure maintenance for trellis and irrigation
- > Experience in growing fruit to a wide range of quality grades including the production of both high yielding warm climate fruit and low yielding high quality cool climate fruit
- > Preparation of budgets and financial reporting to clients
- > Agrochemical support
- > Supervision of staff and work in progress

Personal interests

- > Complete farm management techniques that encourage biodiversity, as demonstrated on personal rural property in the Adelaide Hills.
- > The economic potential and viability of native species, as associated with climate change.
